-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 11 March 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 8 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Parkin GB 1217382.

Re claim 8: Parkin teaches a clamping piece of springy sheet metal (page 1 column 1 lines 9-31) comprising:

two opposing arms **3,4** each having a generally v-shaped latching recess (formed where **3,4** bend to form flanges **5,6** respectively) encompassing a respective edge of a panel 'a' when the clamping piece is latched in a panel opening (Fig 2, 4, and 5)

a spring bottom **1** connecting said opposing arms, said bottom having in its middle a hole **2** for receiving a screw (Fig 4 or 5) for securing a component to the panel from a sided of the panel distant the spring bottom (Fig 5) (page 1 column 2 lines 79-90)

opposing support lobes **9,10** each having a length along said spring bottom that is shorter than a distance between said latching recesses, each support lobe extending between the arms from said spring bottom in a direction toward said component when clamping piece is secured in the panel (Fig 4 clearly shows shorter length of **9**, and lobe **9** between arms **3,4** and extending toward component 'c' , see also page 2 column 1 lines 12-42). If pressure were applied to the spring bottom by a screw, said support

Art Unit: 3677

lobes 9,10 are capable of extending through a panel opening 'b' and abutting the component and maintaining a minimum distance between the component and spring bottom.

Re claim 7: The spring bottom is shown as arched in Fig 4.

arch (ärch) *noun*

1. A structure, especially one of masonry, forming the curved, pointed, or flat upper edge of an open space and supporting the weight above it, as in a bridge or doorway.
2. A structure, such as a freestanding monument, shaped like an inverted U. <sup>1</sup>

### ***Response to Arguments***

3. Applicant's arguments with respect to claims 7 and 8 have been considered but are moot in view of the new ground(s) of rejection.
4. Examiner reviewed the interview summary, and notes that applicant did not claim the clip in combination with a specific environment.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In particular, Zimmer USP 5281064, Jaworski 3035624, and Pierce USP 1822845 can be considered to teach the claimed invention.
6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Examiner attempted to contact applicant on 5/24/05 in the early evening but was unable to leave a message with applicant's phone system. However, examiner does not see a simple change to overcome the Parkin reference.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Katherine W. Mitchell whose telephone number is 571-272-7069. The examiner can normally be reached on Mon - Thurs 10 AM - 8 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, J. J. Swann can be reached on 571-272-7075. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
